Need Help??

Welcome to the Illuminations!

Here you will find questions (from the Seekers of Perl Wisdom section) which have been esteemed by our venerable monks to be *exceptional*.

These questions are organized with categories (tags, keywords).

These exceptional questions will likewise have one or more replies which have been deemed *best*.

When you're viewing the SoPW section, or the threaded view of a question, each exceptional question and its best replies are indicated with a nice golden star: ⭐

The users empowered to designate questions and answers as "exceptional" are the Q&A Editors group.

For further information, see the FAQ How are the Illuminations maintained?

Good Questions:

Category	#Questions
arrays	39
cgi programming	36
data formatting	10
data structures	12
database programming	22
dates and times	17
debugging	7
